## **National Summit Brings Together Leaders To Focus On Campus Safety**

**Securus, Inc. to Sponsor Sept. 29<sup>th</sup> Event Organized by  
Lehigh University & Security On Campus, Inc.**

**Bethlehem, PA** – Twenty years after the federal Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act took effect, the nation’s most prominent thought leaders on campus safety will come together to discuss the critical issues facing colleges and universities. On September 29<sup>th</sup>, during National Campus Safety Awareness Month, Lehigh University and Security On Campus, Inc. (SOC) will present the summit, “Proceeding in Partnership: The Future of Campus Safety.” The event will be held at Lehigh’s Mountaintop Campus, and will feature panel discussions on sexual violence, alcohol and other drug abuse, and emergency response.

“Jeanne loved life, and loved people,” said SOC’s co-founder Connie Clery, whose daughter Jeanne was killed at Lehigh in 1986 inspiring Congress to enact the law now named in her memory. “Nothing would please her more than to know her legacy has been making students safer so they can live and enjoy life.”

Participants at the summit will have the opportunity to interact with and learn from researchers and practitioners about programs that have demonstrated success in improving campus safety. At the conclusion of the event, a roadmap, based on evidence-driven results from the field, will be produced, helping to guide the future of campus safety.

Vice Provost of Student Affairs John Smeaton said Lehigh is honored to be hosting the national summit on campus safety.

“It is a wonderful opportunity to acknowledge the excellent work of the Clery family and of Security On Campus, Inc.,” he said. “We look forward to identifying best practices to promote safety on college campuses across the country.”

Securus, Inc., a market leader in GPS-based safety & security products, will sponsor the summit. Securus has recently developed a unique, comprehensive security system designed specifically to improve safety on college campuses. The system includes eClick GPS Locator and CatchATheifGPS, two new products that will be exhibited at the summit.

“We believe that one valuable tool used to help keep a campus safety is technology, and learning from participants and SOC in summits like this one will spur meaningful innovation. We are proud to be sponsoring this important summit and to meet campus security thought leaders,” said Chris Newton, CEO of Securus.

Registration for the event is limited, so please visit [www.securityoncampus.org](http://www.securityoncampus.org) to register for the event and to locate information on travel arrangements.

***About Security On Campus, Inc. (SOC):***

Security On Campus, Inc. was founded in 1987 by Jeanne Clery’s parents, Connie & Howard, after she was raped and murdered in her on-campus residence hall at Lehigh University, by a fellow student whom she did not know. SOC worked to secure passage of the Jeanne Clery Act, originally known as the Campus Security Act, in 1990 and continues to be the nation's leading voice for the improvement of campus safety. SOC was recently named the “most influential security focused not-for-profit” by Security Magazine. SOC is based in King of Prussia, Pennsylvania. For additional information on SOC call 610-768-9330 or go to [www.securityoncampus.org](http://www.securityoncampus.org).

***About Lehigh University:***

For 146 years, Lehigh University ([www.lehigh.edu](http://www.lehigh.edu)) has combined outstanding academic and learning opportunities with leadership in fostering innovative research. The institution is among the nation's most selective, highly ranked private research universities. Lehigh’s four colleges – College of Arts and Sciences, College of Business and Economics, College of Education and the P.C. Rossin College of Engineering and Applied Science – provide opportunities to 7,000 students to discover and grow in a learning community that promotes interdisciplinary programs with real-world experience.

***About Securus, Inc.:***

Securus, Inc. is focused on deploying GPS-enabled solutions for the Safety and Security market. Securus has developed a complete GPS technology platform, “GPS as a Service,” enabling the Company and its market partners to deliver tailored GPS hardware and software solutions specifically designed for each vertical on one streamlined interface. Securus’ strategy is to partner with leading companies in each vertical market to ensure best-of-class solutions for customers. Securus’ products are designed for college students, individuals with special needs, pet protection, child safety and law enforcement. Through its wholly owned subsidiary, Zoombak, Inc., general purpose and vehicle tracking locators are sold through national retail chains. Visit Securus at [www.SecurusGPS.com](http://www.SecurusGPS.com) and learn more about Zoombak at [www.Zoombak.com](http://www.Zoombak.com).
