

Securus Taps RACO Wireless for M2M Support of Its GPS Solutions

RACO Wireless will provide wireless connectivity and SIM management tools for Securus

Cincinnati—June 15, 2011—[RACO Wireless](#), a key machine-to-machine ([M2M](#)) partner and enabler, announced that it is providing the M2M backbone for [Securus Inc.](#), a market-leading provider of GPS-based products and services. Specifically, RACO Wireless supports wireless network connectivity and SIM management for a wide range of GPS applications offered by Securus Inc.

RACO Wireless specializes in providing wireless connectivity for machine-to-machine applications via [T-Mobile](#)'s network. Securus has developed a hardware and software platform called [GPSaaS](#) (Global Positioning System as a Service) that provides safety and security applications for colleges, child safety, law enforcement and other markets. Securus will leverage RACO Wireless' [Omega Management Suite™](#) (OMS) platform for SIM management on its personal, portable GPS devices.

The combination of the T-Mobile network and RACO Wireless' expert team and tools like OMS, make RACO Wireless a powerhouse for M2M solutions.

"Securus offers critical safety applications based on cutting-edge technology, and we are excited to bring our tools and team together to help support Securus in its growth," said John Horn, president of RACO Wireless. "Our long-standing relationship with T-Mobile and the expertise of our team make this a win-win for Securus and RACO Wireless."

The Omega Management Suite™ is a robust information tool that delivers unprecedented visibility into the wireless network and provides essential tools designed to simplify SIM management. OMS provides advanced reporting and alerting features including real-time SIM monitoring & reports, overage reports & alerts, SIM activation & maintenance, SIM management, web based billing, and APN system hardware status monitors.

"After a lengthy comprehensive analysis, we decided that RACO wireless is the best fit for our company, especially during our high growth phase," said Chris Newton, president and CEO of Securus. "We're very happy to have found a partner that will provide tools and relationships required to support our growth."

About RACO Wireless
